Even the action of the bankers, by agreement, in lending \$16,000,000 on the exchange at 6 per cent., failed to relieve the close from such very erratic movements and renewed bad breaks in prices. The extended shrinkage in the value of securities and the corresponding decrease in credits made money very stringent, and 60 per cent. was bid at one time by those seeking accommodation. The action of the associated banks forced the rate down to 6 per cent. ### EVILS OF GAMBLING.

Bishop Lawrence Uses Stock Speculation as a Text for an Address.

BOSTON, Mass., May 9 .- "One has only to listen to the shouts in the stock market during the past few weeks," said Bishop Lawrence, in his annual address to the Massachusetts diocesan convention of the Protestant Episcopal Church, "to be impressed with the danger in which our young men and women, our boys and girls, stand from the temptation to gamble, to get something for nothing, to try to make money fast, to hazard what is of value simply for the pleasure of the hazard. I am not drawing fine distinctions, much less am I making the stock market the scapegoat for an increasing popular danger and vice. Vicious gambling, which catches the popular eye, is but the symptom of a spirit pervading the community, that of an unreadiness to work steadily for the legitimate reward of labor, an unrest at the moderate and fair returns of capital, a making haste

to get rich, a keen love of the sport of overreaching another, a fascination in living by one's wits instead of by one's sober thoughts and careful work. "Two generations ago playing cards was forbidder because it was associated with gambling. Then the cards were brought forth from their hiding places and given a place in the innocent amusements of the home. To-day they are returning to their calling as the instrument of gambling. There are men and women, worshipers in our churches, some even communicants, who waste the daylight and concentrate all their thought and nerve upon the game. and the game is not complete without some stake, small or large. What will you give for the future of the boy whose pin money is the gain of his father's game at the club? The point I want to make is that, instead ! of dwelling on the excesses of the stock market or criticising the police for not suppressing the worst forms of gambling, we

This steadiness was maintained but a short time, when the highly sensational movement of stocks in New York created apprehension among longs. Under a steady stream of liquidation July was forced down to 701sc during the forenoon. Bears took advantage of the unloading to ride down for a profit. Their covering on the slump was, to a degree, due to the report of 62 loads having been taken for export. Under this July recovered to 71%c, but closed rather | 16%c. heavy and %@%c lower, at 71%c. Seaboard clearances were 162,000 bu. Primary re-

No sales for shipment were reported here, but New York claimed Il loads taken for Oats were a shade up at the start, on a big general demand, and were more active than wheat or corn during the early part of the session. The market was the last to feel the Wall-street scare. July, having opened at 271-027%c, advanced sharply to 27%@28c. On the bulge one long let out approximately 5,000,000 bu, and there was other liquidation from scattered sources. followed, and the close was firm, with July &c higher, at 27%c. Receipts were 177 cars. Provisions were dull and weaker on the stock decline and in sympathy with lower ribs receiving support from packers who bought for delivery.
